

Summer Reading Programmer

Description

Love libraries and community? We're looking for motivated students to design, construct and deliver reading-incentive literacy-based summer programs for children and teens aged 5 to 17 years. The reading programmers will develop a program to suit all age groups and ensure that the program delivers continuing education for children throughout the summer.

Responsibilities

To design, construct and deliver summer reading games for children and teens.

Programs

- Plans, organizes, presents and evaluates theme and age-based library programs for children, through oral & visual storytelling, world building, drama and puppetry.
- Prepares and creates skill-building activities for children (including problem-solving, gross and fine motor.)

Leadership

- Be a St. Albert Library ambassador, maintaining and creating relationships with the community inside and outside of the library.
- Demonstrates leadership as a member of a team, including responsibility in making decisions.
- Assists in the supervision of volunteers.
- Is familiar with the requirements of the Alberta Health and Safety legislation as applicable.

Decision Making

- Shared responsibility for decisions relative to the development and delivery of children's and teen summer reading programs with minimal supervision but within supervisory and budget framework.

Results and Impacts

- Work directly impacts the ability of the Library to meet the needs of the community in terms of children, teens and their parents' enthusiasm for reading and the library. The work impacts the Library's image in the community at large.

Knowledge and Skills

- Post-secondary enrollment in 2026 is required.
- Experience working with children.
- General knowledge of information technology, including proficiency with Microsoft Suite, Google Suite and Canva.
